Subject: Application for the Position of Data Analyst

Dear Ms. Shah,

I am writing to apply for the position of Data Analyst at Nexora Analytics Pvt. Ltd., as advertised on your careers page. I recently completed my B.Tech in Computer Engineering and am eager to begin my career in a data-driven organisation such as yours.

During my degree, I built a strong foundation in SQL, Python (Pandas, NumPy, Matplotlib), Microsoft Excel, and Power BI. My final-year project, a sales forecasting dashboard, involved cleaning a dataset of over 50,000 records, identifying seasonal trends, and presenting insights through interactive visualisations. I also completed a six-month Data Analyst internship at Vertex Data Solutions, where I prepared weekly performance reports and automated routine data-cleaning tasks.

I am detail-oriented, comfortable working with deadlines, and keen to learn from experienced professionals. I believe my technical skills and analytical mindset would allow me to contribute meaningfully to your team.

I have enclosed my resume for your review and would welcome the opportunity to discuss my application in an interview. Thank you for your time and consideration.

Yours sincerely,

Mr. Manav Patel
